"This exciting and original book makes a significant contribution to our understanding of the formation of Christian communities in the first two centuries. Royalty's work demonstrates that heresiology, the rhetoric of demonized difference, shaped Christian identities from the start, even before we have thought Christians invented 'heresy.' Anyone interested in the origins of 'orthodoxy' and 'heresy' should read this book." – *David Brakke, Indiana University, USA*

Heresy is a central concept in the formation of Orthodox Christianity. Where does this notion come from? This book traces the construction of the idea of 'heresy' in the rhetoric of ideological disagreements in Second Temple Jewish and early Christian texts and in the development of the polemical rhetoric against 'heretics,' called heresiology. Here, author Robert Royalty argues, one finds the origin of what comes to be labeled 'heresy' in the second century. In other words, there was such a thing as 'heresy' in ancient Jewish and Christian discourse before it was called 'heresy.' And by the end of the first century, the notion of heresy was

integral to the political positioning of the early orthodox Christian party within the Roman Empire and the range of other Christian communities.

This book is an original contribution to the field of Early Christian studies. Recent treatments of the origins of heresy and Christian identity have focused on the second century rather than on the earlier texts including the New Testament. The book further makes a methodological contribution by blurring the line between New Testament Studies and Early Christian studies, employing ideological and post-colonial critical methods.
